Hydraforce

We Mean Professional Hydraulic Solutions.

An ISO 9001-2008 certified company

Company Profile

CERTIFICATE
OF REGISTRATION

This is to certify that

Hydraforce Hydraulic LLC & Hydraforce Services LLC

Al Qouz Industrial Area, P.O. Box 88277 Dubai United Arab Emirates

operates a

Quality Management System

which complies with the requirements of

ISO 9001:2008

for the following scope of registration

The registration covers the Quality Management System for Engineering, Trade, Maintenance and Assembly of Hydraulic Equipments in Industrial, Marine and Offshore.

Certificate No. CERT-0051150
File No. 1366829
Issue Date November 18, 2010

Original Certification Date December 12, 2007
Current Certification Date December 11, 2010
Certificate Expiry Date December 10, 2013

HYDROTECHNIK

As a specialist in dealing hydraulic requirements, we know this area better than anyone else.

- Project design, project management and implementation control system design
- Sales of hydraulic equipment on marine and offshore.
- Refurbishment of hydraulic equipment and system control
- Repair, maintenance and service of offshore rig equipments like top drive, PCWD [BOP], draw work, pump and crane by a trained specialist
- Component diagnosis, system failure diagnosis and testing facilities
- Extensive hydraulic system design capabilities
- Turnkey piping design, supply, installation, pressure testing and flushing
- Fluid analysis, filtration, conditioning and flushing
- Repair and service of hydraulic cranes and lifting equipments

HYDRAULIC CYLINDERS

SAI GLOBAL Certified System
ISO 9001

- We are equipped with the cylinder selection and design programme.
- Capable of manufacturing with very few information like load and application from the client.
- Design capability on selection and calculations.
- All cylinder components manufactured in CNC facilities in Europe.
- Our commitment for the quickest delivery and the Quality
- Most competitive price.
- All components off the shelves.
- Manufacturing and testing process to the international standards.
- Any type of load holding components on the cylinders.
- Any type of Special purpose cylinders.

Technical Specification:	
Pressure range	70 Bar - 350 Bar
Bore Diameter	40 MM - 500 MM
Rod diameter	12 MM - 300 MM
Stroke	100 MM - 6500 MM
Cylinder material specification	ST 52.2 DIN 2391-ISO H8
Rod material specification	C45-SAE 1045
End connections	ANY TYPE OR STANDARD

HYDRAULIC POWER UNITS

SAI GLOBAL Certified System
ISO 9001

Hydraforce is capable to produce the Hydraulic power units custom built for any kind of applications to the international standards and quality with commitment.

Team of technical and application engineers specialized to understand the clients system requirement of the whole system and design the power units.

Most competitive pricing and the Quickest delivery.

Continuous service and engineering support for the units built.

Technical Specification:	
Reservoir	25 Litres - 5000 Litres
Electric Motor	2 KW - 150 KW
Hydraulic Pump	Flow : 4 cc – 200 cc Pressure : 70 Bar - 350 Bar
Additional Features:	Suitable for any Application
	Special designs for Offshore environment
	Built in controls and monitoring components
	Suitable for regular operation and subsea applications
	Any kind of instrumentation and starting system
	All kind of Filtration components built-in
	Optionally with Certifications
